

# The Sun

Entered at the Post Office at Gainesville, Fla., under Act of March 3, 1879.

H. H. BREWSTER, Editor and Publisher.

W. W. ASHLEY, Editor and Writer.

JENNIE E. SCOTT, Our Artist.

S. H. PREWITT, Book Reviewer.

## OFFICE MANAGER BLACK.

Mr. W. Black, Room 2, Telephone 425.  
This Sun is published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States postage free, for 100 paper pages per month. Extra postage or extra time for the weekly edition is additional.

Reading notices in local journals is made a feature of our news, and you can get such additional information.

Rates for display advertising made according to application.

The Gainesville Sun is an eight-page, Sunday paper, published every Monday and Tuesday, and contains all the news of the day, local, state and general, and will be mailed, postage free, to any part of the United States or Canada. See price page for details.

All advertising bills become due after five days of publication, unless otherwise specified in contract. Parties not known to us are required to pay for advertising in advance. Address, THE DAILY SUN, Gainesville, Fla.

Horrie Jordan still insists that the former hold out for a better price.

China has been trying to act like a Republic of the South American type, and the result is several revolutions.

The sale of Jacksonville's \$600,000 of city bonds was made on Monday, the premium amounting to \$62,732. There were 27 bidders.

Kentucky is of the opinion that money can be raised in that state. Do they want "whiskey over" to take the place of mint juleps?

A county in Indiana has a treasurer who has both arms off at the elbows. They feel sure that he will not get the public's money in his own hands.

The Key West Chamber of Commerce passed resolutions a few days ago asking Dr. J. Y. Porter not to resign from the State Board of Health.

Miss Susan B. Anthony is seriously ill at her home in Rochester, N. Y. She is the most prominent woman in America today and her many friends hope for her recovery.

The five-dollar seats for the Bernhardt performances in Tampa were all sold in a day. But the audience will be disappointed if she does not serve a few Spanish sayings during the evening.

It may be all right to tell the boys that he would rather be barefooted in the United States than King of England, but most boys would stick to the throne long enough to get a good pair of "shates."

The trouble with the pecky tariff is that we don't know how high to go in some cases, and how low in others. If we make concessions to Germany, we make England mad. "So there you are" says Mr. Dooley.

Alexander R. Tarr, in his lecture at the Tabernacle on Tuesday evening, gave the boys some very wholesome advice. He is a speaker that is sure to capture his audience, so long as he confines them to American-born citizens.

As against Germany there is no doubt that France has the sympathy of the world. Germany has manifested a tyrannical attitude toward France ever since their last trouble, but the French have fully recovered from that and they are united.

The people of Tampa are after municipal ownership of the waterworks and lighting plants, and there is a large organization that has pledged not to support any man for office who does not so desire himself. They are thoroughly aroused and it looks as though they would win out.

The speech of Governor Broward at Jacksonville Saturday night was not what one might term a knock-out blow to the opposition on the Everglades drainage. He said that the lake water was 20 feet above the sea level and that water would run down hill. But how many miles long would that hill be? Twenty feet in forty or fifty miles would get up a very rapid current.

## BUCKMAN BILL.

The Gainesville Herald were so full as to make it necessary to shorten the Business Edition law, but the bill is a political issue in the election of next year, and Representatives are.

It would seem only reasonable that the question was settled. When the Buckman law was passed the people of Lake City were apparently well pleased, but when Gainesville was selected as the site there was a protest by the promoters of the law in the Legislature. The same people, the same Representatives, and members who made the Buckman law a law are now opposed to it.

What caused the change?

There is little reason for the fight being waged against the Buckman law, as is known to the author. Beyond the face of the reader, no form of cause and the fighting is a simple dagger pointed at the public who do not know, but should intercede and warn.

This law about a great deal to tax people by making the University its center. It is only to raise the thoughts of those who will have some care to think for them, for it would cost as much to maintain the University at Lake City as at Gainesville, and the Buckman law is to take the place for the maintenance of three schools when before the state maintained ten, white and three negro schools. So there is no tax to the taxpayers, not a saving of many thousand dollars each year.

The Buckman law is the work of greedy politicians and was passed for the purpose of making Lake City the University site and enriching a few property owners in that town, and every legislator who voted for the law was aware of this fact, and Representatives who were fully aware that the Buckman bill was originally intended for Lake City and who were opposed to the bill when it was first introduced, were at last compelled to vote for it, believing that Lake City would be the University site, but thank the Lord a piece of "hand-handy" legislation was defeated at the last moment, and a political ring failed to see their plan mature, and Gainesville is the University site.

If these same legislators were sent back to Tallahassee next year they would be as eager to repeal the bill as they were to pass it. They couldn't do otherwise, as they belong to the politicians that would force them to repeal the Buckman school law.

To learn why some people are so anxious to repeal the Buckman law it would be well to see who are the large property owners of Lake City. See if one of the most influential politicians in the State is not the largest property owner in Lake City, see if it is not the "henchmen" of this politician who are trying to cause the Buckman law to become a campaign issue.

Why should the law be repealed when it is conceded that another law will be created to make Lake City the University site? Why should there be such an upheaval in politics over the Buckman school law, when if we investigate below the "face" of the fight we will probably learn that this fight, which some few men are engineering, is for the sole purpose of giving Lake City the same thing that Gainesville has—the University—so that the property of the biggest politician in the State will be increased in value, many thousands of dollars by the repeal of the law, and at a cost to every taxpayer?

We don't think the people of Florida will increase their burden of taxation by repealing the law to help a rich politician get richer.

Yes, after investigating the matter, we are satisfied that beneath this pony of "lost money, robbing the poor man," etc., lies a reason more vital to the financial interest of one politician than his "lieutenants" care for the interest of the poor people.

The appealing to the poor man is

## How's This?

We offer One Hundred Dollars Reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Take Hall's Family Pills for constipation.

Some 50,000 signatures from the State, Head, Ohio, South and Middle Tennessee, and the cities of the Buckman area are being collected to demand help—help that

## WHO SHOULD REPRESENT ALACHUA COUNTY?

Mr. Editor: In the present struggle between each and other member of the Legislature in their efforts to represent a rural county as well as the city and the business section in the same Legislature, it is important to have an educated and honest delegation should be elected. The present Legislature, however, is only composed of young men who know little of the outside world of politics, affairs, or the various fields of endeavor, and whom may arise, and should be educated men who are true to the educational interests of the State, which interests are best represented by the promoters of the Buckman law. This should be made to happen.

Next year the Standard-Advertiser will be the leading and most active voice for the Buckman law.

## POLITICAL ANNOUNCEMENTS

### For STATE ATTORNEY.

To the Democratic Women of the Buckman County of Florida:

Believing that no turned back journey of a woman with an experience as a traveling companion to the State of the United States, I nominate I. C. Johnson as the person of most fitness, knowledge and a candidate for nomination to the Democratic Attorney for the Buckman County of Florida. It is estimated I judge myself as a successful attorney and having the confidence of the other not to be matched the turning and tides of the court.

JOHN M. REED.

To the Democratic Women of the Buckman County of the State of Florida:

Having served you as the Senator of State Attorney since Jan. 1, 1905, and trusting that you have approved of the manner in which I have represented the State and the country in your various trials, I am sending you my policy for the defense of State Affairs for the Buckman County.

Very respectfully,

JOHN M. REED.

To the Democratic Women of the Buckman County of Florida:

I respectfully announce that I am a candidate for the office of State Attorney for the Buckman County of Florida, composed of the counties of Alachua, Marion, Bradford, Levy and Putnam. I seek in the future the highest office in the State of the office to be created according to the State and the voters of the county. I believe with the population of the county that the interests of the State and of Buckman will be best served through fair and just dealing of the people.

THOMAS W. FIELDING.

State, Florida.

### For STATE SENATOR.

I respectfully announce my candidacy for the Democratic nomination as Senator for Alachua County for January, 1907, offering my support of all measures to the interest of the masses, to educate the masses, and to pledge my support and assistance to the education schools and institutions of the State University, and a like cause, and also to all those parents or others that have included a thorough education in their own State, as well as all measures tend to protect the rights and moral welfare of the entire people. Therefore, my friends, for me to support a law that will not only injure the State of Florida, but will injure the country greatly, I am very suspicious.

H. H. McKNARY.
